We're putting the fun back into building.

A Commitment From Kuba

The Building Industry is in a slight housing slump. The good news is that our homes are priced accordingly. The better news is that nothing about our homes is diminished but the price.

In a market where other builders are reducing standards to achieve lower prices, we are not taking that route. We have reduced prices but it's because of reduced margins all the way down our well established supply chain along with our subcontractors & suppliers. Homes are purchased for the long haul, five years from today your new Classic Home by Kuba will be more valuable because of our determination to retain our high standards. From your vantage point as a homeowner, you will endorse our decision to diminish only the price.

In the 18 plus years I have been in this business, I can't think of a time when the market was more favorable to buyers. This market comes as close to guaranteeing good appreciation on your home as I have ever seen. This COMMITMENT is on everything we build. Come in, get a quote and enjoy your new Classic Homes by Kuba.
